

**Mississippi Valley  
CONSERVANCY**

*our future.*

*the land*

## **Corporate Giving**

Many local businesses and organizations share the value of ensuring that land and natural resources are healthy and plentiful for generations to come. The beautiful landscapes of the Driftless Area offer ample opportunities for outdoor recreation, providing a high quality of life and helping businesses attract and retain excellent employees. We invite you and your organization or business to join in protecting the health and beauty of this beautiful place we call home.

Corporate gifts help Mississippi Valley Conservancy increase the pace, permanence, and quality of land conservation and habitat restoration in this area. Supporting the Conservancy also helps with efforts to connect students of all ages and backgrounds with nature.

Mississippi Valley Conservancy is an accredited, nonprofit land trust based in La Crosse, Wisconsin. With community support, over 25,000 acres of blufflands, prairies, forests, wetlands, streams, and farmlands of the Mississippi River Valley and surrounding watersheds have been permanently protected since our founding in 1997. Nearly 7,000 acres are open to the public for hiking, bird watching, hunting, fishing, photography, and snowshoeing.

Join us in our mission to conserve the native habitats and farmlands of Wisconsin's Driftless Area for the health and well-being of current and future generations.

Become a  
**Conservation  
Partner**  
and share your  
community values.

## The benefits of becoming a Conservation Partner

Contributing to Mississippi Valley Conservancy reflects your organization's values and raises your visibility across southwest Wisconsin as a key player in natural resources conservation. We offer numerous recognition benefits. Your business can make one-time or recurring contributions to support our programs and operations. As with individual donations, corporate support provides us with organizational strength, community clout, and financial stability.

Gifts from Conservation Partners support work that protects land, water, wildlife, and climate for the health and well-being of current and future generations.

*To become a Conservation Partner at one of the levels shown, contact us at 608-784-3606 ext. 4.*

Premium website listing and link from Conservancy website to your company website	✓	✓	✓	✓
Membership mailings and email updates	✓	✓	✓	✓

**Your gift today will provide tangible results with a lasting and positive impact for future generations.**

## Program Sponsorship Opportunities

For greater visibility, we also offer program sponsorships that feature your business or organization in media and events related to these programs:

**For the Wild** is a core volunteer program.

Volunteers help with needs that fit their skills and interests, including habitat restoration work, communications, events, and general office tasks. For the Wild volunteers leave a lasting legacy for people today and for future generations.

**Linked to the Land** is an annual series of free family-friendly guided hikes and workshops that introduce the public to the lands and wildlife protected by our community-supported organization. Topics range from birding to snowshoeing, wildflowers, geology, and many more. Participants receive a greater understanding of the role of conservation in our area.

**Trail Trek Challenge** is a free year-round hike/walk program on the many public-access nature preserves we protect. Challenge yourself to hike at least five of the designated trails in a year to discover nature's treasures and enjoy the benefits of getting outdoors.

*Contact us to learn more about the benefits of sponsoring these programs at 608-784-3606 ext. 4.*
